Because You Deserve the Best.

At Crescendo Designs, we pair the best in high-end technology with the art of great interiors for the ultimate lifestyle experience: One that surrounds your senses, enhances your home’s aesthetics and integrates with your life.

An integral member of the design team behind some of the finest homes from Manhattan to the Hamptons, Crescendo engineers each system to intimately achieve peak performance within elegant design.

Because today’s technology is too sophisticated, the home environment too important, the margin for error too great, to trust your system design, programming or installation to anyone other than our talented team of in-house designers, engineers and technicians.

Reach Crescendo. You’ll never go back.
To today’s high-end homeowner, it’s all about staying connected and being able to control what’s going on at home, from wherever they are. Having a company like Crescendo on our team gives us the comfort level to deliver to our clients the technology that makes that possible, all in an amazing design.

Seamlessly Satisfying.
Every facet of your home is harmoniously intertwined, expertly installed and all yours with just the touch of a button.

EXPERT DESIGN
It’s your life, your style. Share your vision. Our experienced designers will work with you and your architect, builder or interior designer to make it a reality in your home... and good for our planet.
All the way is the only way to go. Satisfy your every desire, simplify your life and go green for our planet with a home that's smart enough to know when you're there ... and when you're not. Whether the environment is too cold ... or too hot ... when it's time for the lights to dim, the shades to close ... and your evening to begin.

It's Your Life. Experience It on Your Terms.

The smart home technology paired with the art of great interiors.

The best in home technology paired with the art of great interiors.

It's Your Life. Experience It on Your Terms.

Today's premium brands expertly installed.

Home control from virtually anywhere in the world.

24/7 service that goes above and beyond ... all day, every day.

MANHATTAN, NY

SAGAPONACK, NY
After interviewing several home theater specialists, we concluded that Crescendo Designs was the best. We could not be more pleased. They handled the entire job, beginning with just raw space, and the result is both beautiful and enjoyable. The video/audio performance of our theater is beyond what we expected.

MR. & MRS. PAUL M.

Pure Pleasure.
A sensory experience like no other, this is more than a home theater – it’s a private cinema. With sound that is crisp, clean and clear; vibrant visuals that virtually burst off the screen; wrapped in a comfortable space designed to fit your sense of style and elevate your lifestyle, whether it’s at the beach in the Hamptons or high above Manhattan.

• Premium projectors and surround sound systems.
• Acoustically treated environments.
• Fine designer theater seating.
• Fiber-optic ceilings.
• Cinematic production quality.
Crescendo is simply the best to work with. You get top-of-the-line technology and superior service from a team that knows how to integrate that technology into a design to help bring each client’s vision to life, whether it’s creating a green environmental sense – or a greener home.

AMY PLUM
Plum Design, Interior Designer & Client

STEP 1: INSPIRATION
It all begins with the art of good conversation. We explore your wants and desires as we review your architect’s plans, walk through your home and have you visit ours. We then outline the project scope and budget for your approval.

STEP 2: DESIGN
Working with the architect, builder and interior designer, our in-house engineer creates a detailed proposal – with a complete equipment listing and a guaranteed installed price – to ensure the perfect components for your perfect environment.

STEP 3: INSTALLATION
Engage Crescendo and your designated project manager takes it from there, working with our in-house team that uses the latest in CAD software – and an eye for detail – to develop layouts for your furnishings and equipment selections for your approval. We program, test and configure all your equipment and then “tune” your Crescendo manufacturer-certified installation team completes the process and gives a system tutorial.

STEP 4: SERVICE & SUPPORT
Your Crescendo design and installation is backed by the best staff of manufacturer-certified technicians in the business. Experienced professionals who stand ready to assist – and are supported by our unique 24/7 customer service guarantee, so your pleasure goes on . . . and on.

The Height of Satisfaction, Every Step of the Way.
